SUMMARY

Driven and detail-oriented Software Engineer with a strong foundation in designing, developing, and optimizing software solutions. Skilled at problem-solving, collaborating in team environments, and adapting quickly to new challenges. Committed to delivering reliable, efficient, and user-focused applications that create real impact.

SKILLS

- Software development
- Database Design & Management (MySQL, MongoDB)
- API Implementation & Integration
- Problem Solving & DebuggingTesting and deployment
- Web Development (HTML, CSS, JavaScript, Flask/Django)
- Version Control (Git/GitHub)

Rasul Mamishov

EXPERIENCE

October 2024 - August 2025
Software Engineer Holberton Azerbaijan | Baku

- Developed and tested software applications using programming languages such as Java and Python.
- Designed databases to store application data using SQL Server or MongoDB technologies.
- Collaborated with UI/UX designers to improve software usability and user experience.
- Optimized existing software systems for improved performance and scalability.
- Implemented **RESTful APIs** to enable smooth communication between frontend and backend.
- Applied **security best practices** (encryption, input validation, authentication).
- **Participated in Agile/Scrum sprints**, contributing to faster delivery cycles and clear project communication.
- **Developed and deployed responsive websites** using HTML, CSS, and JavaScript, ensuring cross-browser and mobile compatibility.
- **Deployed websites to cloud platforms** (AWS/Heroku/GitHub Pages), ensuring scalability and high availability.

EDUCATION AND TRAINING

August 2025
Master of Science | Foundation Of Computer Science
Holberton , Azerbaijan

ACTIVITIES AND HONORS

- Participated in coding bootcamps and group projects focused on full-stack web development.
- Contributed to open-source projects and collaborated with peers on GitHub.
- Engaged in continuous learning through online courses, tech meetups, and programming challenges.

ACCOMPLISHMENTS

- Successfully completed the **Holberton School Foundation Program** in software engineering.
- Recognized for strong problem-solving skills during team projects and hackathons.
- Built and launched personal web applications showcasing full-stack development abilities.
